**Question: 1**

Which of the following can NOT be configured with the security policy settings document?

- A. Password synchronization
- B. Password recovery options
- C. Execution control lists (ECLs)
- D. Notes and Internet password settings

**Answer: B**

**Question: 2**

Barbara wishes to migrate her company's Notes certifier to the new Certificate Authority process. She has chosen to encrypt the certifier id with the server id instead of creating a specific trusted id. What Domino server console command must be issued to secure the certifier?

- A. load activate ca <idfile>
- B. load ca <password> unlock
- C. tell ca activate <password>
- D. tell ca unlock <idfile><password>

**Answer: C**

**Question: 3**

Select the notes.ini parameter that deny's any user from accessing a server in full access administrator mode.

- A. SET\_RESTRICT\_FULLACCESS=1
- B. RESTRICT\_FULLADMIN\_ACCESS=1
- C. SECURE\_DISABLE\_FULLADMIN = 1
- D. FULLACCESS\_ADMIN\_RESTRICTED=1

**Answer: C**

**Question: 4**

Martin, the Domino administrator, has established a Security Policy document that allows users to change their Internet passwords via HTTP. However, users are still unable to make this change while in Domino Web Access. Martin has verified the following:

- All users have the security policy correctly applied
- Users have proper rights to the Domino Directory
- Adminp is running correctly on the Domino server

Which of the following best describes the user's inability to change their Internet password?

- A. The Domino server requires the DSAPI security filter of nlnetPassword to be put in place
- B. Domino HTTP does not allow an authenticated user to change their Internet password, only a Notes id password
- C. The security tab of the Domino Web Access server document does not have the users in the field to allow modifications of person documents
- D. The server configuration document for that server has the option for modification of Internet passwords while in Domino Web Access tab set to disabled

**Answer: D**

**Question: 5**

Josh discovered that his Domino web server was allowing less secure authentication against his Domino Directory for all of his users. He is moving the authentication from lower security to higher security. Which of the following login ids will NOT be allowed when he makes the change and restarts his Domino web server?

- A. AJones
- B. Alan Jones
- C. CN=Alan Jones
- D. Alan\_Jones@company.com

**Answer: A**

**Question: 6**

Marcy has a habit of misplacing and forgetting the password for her user.id file. You have provided password recovery services to her numerous times. However, she has called back stating the recovery passwords she had written down from your previous recovery successes no longer works. Which of the following provides the best explanation?

- A. You set her person document's recovery attempt field to Disabled
- B. She has exceeded the maximum times a recovery password may be utilized on an id file
- C. You enabled password synchronization between Notes and Internet passwords via policies
- D. She recently accepted a new position and was moved to a new organizational unit in the company

**Answer: D**

**Question: 7**

Jim, the Domino administrator, wishes to deny access to a server named Mail14 for a user named Randy. Jim also wants to verify that Randy cannot view a list of names that have been denied server access to Mail14. Which of the following provides that functionality?

- A. ID lockout for Randy's id
- B. Forced password change for Randy's id
- C. Notes ID password recovery for Randy's id
- D. "Not access server" field in the Mail14 server document

**Answer: A**

**Question: 8**

Gayle was responsible for creating security policy settings documents for her organization. After Gayle left, they were having trouble with policies being applied in areas unexpected and not working properly in other areas of the organization. You are now responsible for sorting out the structure of the security policy settings. Which of the following represents the order in which a policy setting would be applied to a user in order, from the lowest to highest priority?

- A. Exception policy, Explicit policy with setting from parent, Explicit policy with setting from parent Organization
- B. Explicit policy with enforced settings from parent, Organizational policy with enforced settings and Exception policy
- C. Organizational policy with settings from child, Organization policy with setting from parent and Explicit policy with setting from child
- D. Organizational Policy with settings from parent, Explicit policy with settings from parent and Explicit policy with enforced settings from parent

**Answer: D**

**Question: 9**

Data is not being successfully sent to a cgi program on the Domino web server by Jenny, a user. Another user in the Bakery department can start a program successfully on the web server after logging in. One of the members of LocalDomainAdmins, Brian, tests the same cgi script and has sent data successfully. Which of the following would be the correct settings to allow Jenny to send data to the cgi program?

- A. Set Anonymous to Read, -Default- to Author and LocalDomainAdmins to Manager
- B. Set LocalDomainAdmins to Editor, -Default- to Get and Anonymus to No Access
- C. Set -Default- to Post, Anonymous to Get and LocalDomainAdmins remain the same
- D. Set -Default- to Reader, Anonymous to Depositor and LocalDomainAdmins to Upload

**Answer: C**

**Question: 10**

You have been asked to make a comprehensive administration structure that contains restricted rights for certain groups of administrators. While maintaining the rights to remotely administer Unix servers, which of the following Domino administrator access level is not automatically granted Manager access to databases on the server, nor do they have any access to the Web Administrator database?

- A. Administrators
- B. Console administrator
- C. Database administrators
- D. Full access administrator

**Answer: C**

**Question: 11**

From the following, select the listing which provides agent manager rights ranked in order from the highest to the lowest.

- A. Run unrestricted methods and operations  
Sign agents to run on behalf of someone else  
Sign agents to run on behalf of the invoker of the agent  
Run restricted LotusScript/Java agents  
Run simple and formula agents  
Sign script libraries to run on behalf of someone else
- B. Run simple and formula agents  
Sign agents to run on behalf of someone else  
Run restricted LotusScript/Java agents  
Run unrestricted methods and operations  
Sign script libraries to run on behalf of someone else  
Sign agents to run on behalf of the invoker of the agent
- C. Sign script libraries to run on behalf of someone else  
Sign agents to run on behalf of the invoker of the agent  
Sign agents to run on behalf of someone else  
Run unrestricted methods and operations  
Run restricted LotusScript/Java agents  
Run simple and formula agents
- D. Sign agents to run on behalf of the invoker of the agent  
Run restricted LotusScript/Java agents  
Sign agents to run on behalf of someone else  
Run unrestricted methods and operations
