If you use pass4sureofficial COG-132 Certification questions and answers, you will experience actual COG-132 exam questions/answers. We know exactly what is needed and have all the exam preparation material required to pass the exam. Our Cognos exam prep covers over 95% of the questions and answers that may be appeared in your COG-132 exam. Every point from pass4sure COG-132 PDF, COG-132 review will help you take Cognos COG-132 exam much easier and become Cognos certified. All the Questions/Answers are taken from real exams.

Here's what you can expect from the Pass4sureOfficial Cognos COG-132 course:

- * Up-to-Date Cognos COG-132 questions taken from the real exam.
- * 100% correct Cognos COG-132 answers you simply can't find in other COG-132 courses.
- * All of our tests are easy to download. Your file will be saved as a COG-132 PDF.
- * Cognos COG-132 brain dump free content featuring the real COG-132 test questions.

Cognos COG-132 certification exam is of core importance both in your Professional life and Cognos certification path. With Cognos certification you can get a good job easily in the market and get on your path for success. Professionals who passed Cognos COG-132 exam training are an absolute favorite in the industry. You will pass Cognos COG-132 certification test and career opportunities will be open for you.

Question: 1

A recursive relationship exists between SALES_STAFF_CODE and MANAGER_CODE in the SALES_STAFF data source query subject. This query subject is provided in a model to report authors. Using this query subject alone, report authors cannot create a report that includes management staff and the sales staff that report to them. How can the existing recursive relationship in the model be modified to provide this ability to report authors?

- A. Import a query subject that does not contain a recursive relationship.
- B. Create a star schema grouping that contains the SALES_STAFF data source query subject and a shortcut to the SALES_STAFF data source query subject.
- C. Create a model query subject with the appropriate relationship to the existing SALES_STAFF data source query subject and make both available to report authors.
- D. Create a shortcut to the SALES_STAFF data source query subject, and report authors will use it instead of the underlying query subject to create the required report.

Answer: C

Question: 2

Which of the following are proven practices for organizing the objects in a project?

- A. When importing metadata from more than one data source, include all imported objects in the root namespace.
- B. When importing metadata from more than one data source, create a separate folder for the imported objects from each data source.
- C. When importing metadata from more than one data source, create a separate namespace for the imported objects from each data source.
- D. When importing metadata from more than one data source, do not override the relationships defined between the data sources at the time of import.

Answer: C

Question: 3

In Cognos 8, what are the two distinct model types authors can work with?

- A. OLAP and DMR
- B. Dimensional and DMR
- C. Relational and SAP BW
- D. Relational and Dimensional

Answer: D

Question: 4

When a modeler imports metadata into Framework Manager, the Usage property for a non-indexed, numeric query item is set to which of the following?

- A. Fact
- B. Attribute
- C. Identifier
- D. Unknown

Answer: A

Question: 5

When importing metadata into Framework Manager from a relational database, which of the following can be controlled by the modeler performing the import?
