We know exactly what is needed and have all the exam preparation material required to pass the exam. Our Microsoft exam prep covers over 95% of the questions and answers that may be appeared in your MB7-517 exam. Every point from pass4sure MB7-517 PDF, MB7-517 review will help you take Microsoft MB7-517 exam much easier and become Microsoft certified. All the Questions/Answers are taken from real exams.

Here's what you can expect from the Pass4sureOfficial Microsoft MB7-517 course:

- * Up-to-Date Microsoft MB7-517 questions taken from the real exam.
- * 100% correct Microsoft MB7-517 answers you simply can't find in other MB7-517 courses.
- * All of our tests are easy to download. Your file will be saved as a MB7-517 PDF.
- * Microsoft MB7-517 brain dump free content featuring the real MB7-517 test questions.

Microsoft MB7-517 certification exam is of core importance both in your Professional life and Microsoft certification path. With Microsoft certification you can get a good job easily in the market and get on your path for success. Professionals who passed Microsoft MB7-517 exam training are an absolute favorite in the industry. You will pass Microsoft MB7-517 certification test and career opportunities will be open for you.

Question: 1

You are the System Implementer and are discussing the Object Level Security of the Microsoft Dynamics NAV Security System. You tell the IT Engineer that the Security System divides the database into nine objects. Which object is used to present the data? Choose the 2 that apply.

- A. Report
- B. Form
- C. Table data
- D. Data port

Answer: A, B

Question: 2

You are the System Implementer and are discussing the differences between the SQL Server Option and the Dynamics NAV database. What do you communicate as the main difference between the database platforms? Choose the 2 that apply.

- A. The User Interface
- B. The available backup facilities
- C. The logon process
- D. The way that SIFT works

Answer: B, D

Question: 3

You are a Microsoft Dynamics NAV end-user. The application is running slowly so you ask the consultant's advice on what to do. The consultant recommends that you monitor the performance of the application and recommends the most important tool for performance monitoring. What tool does the consultant recommend?

- A. The application monitor
- B. The server monitor
- C. The client monitor
- D. Time measurements

Answer: C

Question: 4

You are an IT Engineer new to Microsoft Dynamics NAV. In your conversations with the System Implementer you have discussed the Architecture of the application. Based on your discussions, how do you describe the role of client? Choose the 3 that apply.

- A. Renders the User interface
- B. Executes all the business logic
- C. Controls access to the data through locking
- D. Connects directly to a standard database file without going through the server

Answer: A, B, D

Question: 5

As the Microsoft Dynamics NAV System Implementer you are in a discussion with an inexperienced Microsoft Dynamics NAV salesperson who asks which database server options are available in the Microsoft Dynamics NAV. What do you tell the salesperson? Choose the 3 that apply.

- A. Oracle 9.0
- B. Microsoft SQL Server 2000
- C. Microsoft Dynamics NAV Database Server
- D. Microsoft SQL Server 2005

Answer: B, C, D

Question: 6

Under what conditions must you enter user-credentials when opening a specific database?

- A. You must enter an ID and password regardless of the Authentication method you select (Database server authentication or Windows authentication).
- B. You can open and work in more than one company at a time.
- C. You must enter an ID and password only if using the Windows Authentication method.
- D. You must enter an ID and password only if using the Database Authentication method.

Answer: D

Question: 7

You are a Microsoft Dynamics NAV Implementation Consultant doing an installation at a small company with only one computer. Which type of installation is recommended for a Microsoft Dynamics NAV single user workstation?

- A. Minimum
- B. Maximum
- C. Complete
- D. Typical

Answer: C

Question: 8

As the IT Engineer you need to locate an end-user's setup file so that you can move it to a shared network directory. Where do you first look for the ZUP file?

- A. C:\Documets and Settings\User Name\Application Data
- B. C:\Program Files\Microsoft\Dynamics NAV
- C. C:\Program Files\Microsoft\Dynamics
- D. C:\Documents and Settings\User Name\Dynamics NAV

Answer: A

Question: 9

You are the IT Engineer at a large corporation. An end-user complains that he ran out of room on his computer while loading his MP3 collection so he uninstalled the Microsoft Dynamics NAV client. Later he felt bad about this and decided to reload the client. Even though he had removed his MP3 collection from the system, he was still unable to reinstall Microsoft Dynamics NAV. You explain that when the user uninstalled the client it did not remove any of the following components.

- A. All files related to Microsoft Dynamics NAV
- B. Code Units and XML Ports
- C. Licenses, Databases and Database backups
- D. Reports, Invoices and Statements

Answer: C

Question: 10

You are an IT Engineer, have almost finished doing a client install and realize you are installing on the wrong computer. You attempt to cancel the installation. What happens to the portions of the program already installed?

- A. Nothing, you cannot stop the installation process once it begins.
- B. The installation process will stop but the installed portions stay in the program folders in case you reinstall at a later time.
- C. The installed files are moved to the temporary folder so they can be accessed in case of another installation attempt.
- D. Microsoft Installer will perform a rollback and restore the computer to the state it was in before the installation began.

Answer: D

Question: 11

You are the IT Engineer in the process of installing Microsoft Dynamics NAV. When using the Microsoft Installer to make changes to the setup configuration, which of the following statements are correct? Choose the 3 that apply.

- A. A description of the selected feature is given on the right side (scope pane) of the Custom Setup Window
- B. Click on a Feature Icon to display drop down list of options.
- C. Clicking on HELP will describe the different feature install options.
- D. Click on PATH to change the target path of the installation.

Answer: A, B, C

Question: 12

A Microsoft Dynamics NAV end-user is frustrated because everytime she uses her computer the User Interface has changed and and she does not have quick access to the Accounts Payable windows. The end-user also works from different systems over the course of the week and she wants a consistent user interface as she moves about. What steps can you take to resolve her concern? Choose the 2 that apply.

- A. Provide the end-user with a laptop for her exclusive use and allow the zupfile to be saved on her local hard drive.
- B. Provide each user with an individual Windows account so each user has his or her own ZUP file.
- C. Setup the end-user as Roaming User so that the user's ZUP file is saved on the server.
- D. Store the setup file in a common drive on the network so that users can access them from any workstation.

Answer: A, C

Question: 13

You are the IT Engineer at a small company. You have installed the Microsoft Dynamics NAV Database Server as a Service because you want to start the Database Server everytime the server computer starts up. You notice that the Hotcopy backups on another computer are failing. How can you solve this problem?

- A. Forget about storing Hotcopy backups on another computer. Hotcopy backups can only be stored on the Database Server.
- B. Reinstall the Database server as an application to resolve the backup issue.
