NNCSS-BayStack/BPS Switching Exam

Visit: <http://www.pass4sureofficial.com/exams.asp?examcode=920-123>

Pass4sureofficial.com is a reputable IT certification examination guide, study guides and audio exam provider, we not only ensure that you pass your 920-123 exam in first attempt, but also you can get a high score to acquire Nortel certification.

If you use pass4sureofficial 920-123 Certification questions and answers, you will experience actual 920-123 exam questions/answers. We know exactly what is needed and have all the exam preparation material required to pass the exam. Our Nortel exam prep covers over 95% of the questions and answers that may be appeared in your 920-123 exam. Every point from pass4sure 920-123 PDF, 920-123 review will help you take Nortel 920-123 exam much easier and become Nortel certified. All the Questions/Answers are taken from real exams.

Here's what you can expect from the Pass4sureOfficial Nortel 920-123 course:

- * Up-to-Date Nortel 920-123 questions taken from the real exam.
- * 100% correct Nortel 920-123 answers you simply can't find in other 920-123 courses.
- * All of our tests are easy to download. Your file will be saved as a 920-123 PDF.
- * Nortel 920-123 brain dump free content featuring the real 920-123 test questions.

Nortel 920-123 certification exam is of core importance both in your Professional life and Nortel certification path. With Nortel certification you can get a good job easily in the market and get on your path for success. Professionals who passed Nortel 920-123 exam training are an absolute favorite in the industry. You will pass Nortel 920-123 certification test and career opportunities will be open for you.

Question: 1

Given the following information:

A new BayStack 470-48T switch is being initially configured
The definitions of the ports and VLANs have been completed.

Which tool should you use to implement the initial Quality of Service (QoS) configuration?

- A - QoS Wizard
- B - QoS Advanced
- C - QoS Quick Config
- D - QoS Startup

Answer: A

Question: 2

The connection to a file server from a BayStack 470-48T stack is via two 100Mbps connections arranged in a MultiLink Trunk (MLT). You wish to increase both the throughput and redundancy provided in this connection. How do you connect the server to the BayStack 470-48T stack?

- A - With four 100Mbps connections defined in an MLT.
- B - With four 100Mbps connections defined in a Distributed MLT (DMLT).
- C - With six 100Mbps connections defined in a Split MLT (SMLT).
- D - With six 100Mbps connections defined in a DMLT.
- E - With four 100Mbps connections defined in an SMLT.

Answer: B

Question: 3

A BayStack 470-48T is initially being configured:

It is necessary to send the Simple Network Management Protocol (SNMP) traps to an Optivity Network Management System (NMS) so that the switch can be monitored.

Using the Console Interface menus, the SNMP Configuration screen has been entered.

To specify a trap receiver, both an IP address and a Community String must be specified.

What is the requirement for the community string when defining a trap receiver?

- A - It must be the read community string for the BayStack 470-48T
- B - It must be the read-write community string for the BayStack 470-48T
- C - It must be a community string that has been defined on the Optivity NMS for the BayStack 470-48T
- D - It must be the read-write community string that has been defined on the Optivity NMS for the BayStack 470-48T

Answer: C

Question: 4

Port-based VLAN 10 has been configured on a standalone BayStack 470-24T switch. Port 5 must now be added to VLAN 10.

What are the steps necessary to add Port 5 to VLAN 10 in Java Device Manager (JDM)?

- A - From the main menu choose Application-> LAN-> VLAN Configuration. In the VLAN Table section, click the Modify icon for VLAN 10. Now add Port 5 to the list of members.
- B - Highlight Port 5 on the device, and from the main menu choose Edit-> Port. Now click on the VLAN tab and in the DefaultVlanId field, enter 10 and click Apply.
- C - From the main menu choose Edit-> VLANs. Double click on Port Members for VLAN 10 and

Pass4SureOfficial.com Lifetime Membership Features;
