Pass4sureofficial.com is a reputable IT certification examination guide, study guides and audio exam provider, we not only ensure that you pass your MB4-534 exam in first attempt, but also you can get a high score to acquire Microsoft certification.

If you use pass4sureofficial MB4-534 Certification questions and answers, you will experience actual MB4-534 exam questions/answers. We know exactly what is needed and have all the exam preparation material required to pass the exam. Our Microsoft exam prep covers over 95% of the questions and answers that may be appeared in your MB4-534 exam. Every point from pass4sure MB4-534 PDF, MB4-534 review will help you take Microsoft MB4-534 exam much easier and become Microsoft certified. All the Questions/Answers are taken from real exams.

Here's what you can expect from the Pass4sureOfficial Microsoft MB4-534 course:

- * Up-to-Date Microsoft MB4-534 questions taken from the real exam.
- * 100% correct Microsoft MB4-534 answers you simply can't find in other MB4-534 courses.
- * All of our tests are easy to download. Your file will be saved as a MB4-534 PDF.
- * Microsoft MB4-534 brain dump free content featuring the real MB4-534 test questions.

Microsoft MB4-534 certification exam is of core importance both in your Professional life and Microsoft certification path. With Microsoft certification you can get a good job easily in the market and get on your path for success. Professionals who passed Microsoft MB4-534 exam training are an absolute favorite in the industry. You will pass Microsoft MB4-534 certification test and career opportunities will be open for you.

Question: 1

What program do you use to set up SQL back up jobs?

- A. SQL Profiler
- B. Microsoft Dynamics SL Database Maintenance
- C. SQL Server Management Studio
- D. Service Manager

Answer: C

Question: 2

Microsoft Dynamics SL's access security functions include which of the following? Choose the 3 that apply.

- A. Controlling who can and cannot log into Microsoft Dynamics SL.
- B. Enabling and disabling Microsoft Access database security functions.
- C. Identifying database users and groups.
- D. Controlling who does and does not have access rights to certain Microsoft Dynamics SL windows.

Answer: A, C, D

Question: 3

What is the primary reason for installing additional servers in the Microsoft Dynamics SL hardware environment?

- A. To offload printing, email and file services from the main database server
- B. To make more hard disk storage space available
- C. To allow for duplicate data entry
- D. To provide a redundant environment that would prevent a total system failure in the event of a server crash

Answer: A

Question: 4

Which of the following statements about the Microsoft Dynamics SL System database is false?

- A. The System database contains Microsoft Dynamics SL product registrations, security settings and database field attributes.
- B. The System database does contain some accounting data.
- C. A separate System database must be created for each Application database you define.
- D. The System database eliminates the need for redundant system-level information in Application databases.

Answer: C

Question: 5

Good implementation policies recommend a "pre-installation" process. Which of the following should be included in a pre-installation process? Choose the 3 that apply.

- A. You can optionally activate Microsoft SQL Server's referential integrity capabilities to extend the referential integrity capabilities of Solomon.
- B. Protect the data of any current accounting software that Microsoft Dynamics SL is replacing.
- C. Verify adequate hardware and software resources to run Microsoft Dynamics SL..

D. Obtain the tools and resources used before, during and after the installation of Microsoft Dynamics SL program files.

Answer: B, C, D

Question: 6

Which of the following statements about referential integrity is true?

- A. Referential integrity is programmed into Microsoft Dynamics SL application windows.
- B. Referential integrity is solely the responsibility of the Microsoft Dynamics SL System Manager module.
- C. Microsoft Dynamics SL's referential integrity functions are closely connected to the referential integrity functions provided by Microsoft SQL Server.
- D. You can optionally activate Microsoft SQL Server's referential integrity capabilities to extend the referential integrity capabilities of Microsoft Dynamics SL.

Answer: A

Question: 7

What is the purpose of Microsoft Dynamics SL's two-database design? Choose the 2 that apply.

- A. Provide data redundancy that protects the financial data in the event of a system crash.
- B. Maintain system data separately from financial data for storage and operating efficiency.
- C. Allows Microsoft Dynamics SL to distribute data evenly across databases.
- D. Permit multiple Application databases to coexist on the same computer system.

Answer: B, D

Question: 8

What is the purpose of referential Integrity?

- A. Enforces the relationship between a Microsoft Dynamics SL system database and its application databases.
- B. Enforces the relationship between database tables.
- C. Enforces the relationship between the Microsoft Dynamics SL System Manager module and all other Microsoft Dynamics SL modules.
- D. Enforces the relationship among all windows (data entry, maintenance, processing, reporting) making up a Microsoft Dynamics SL module.

Answer: B

Question: 9

When installing SQL Server to be used with Microsoft Dynamics SL, you must do which of the following? Choose the 2 that apply.

- A. Install with the default character set.
- B. Install it on the same server as Microsoft Dynamics SL.
- C. Set the sa user's password to "Master".
- D. Install with the default sort order

Answer: A, D

Question: 10

Which of the following cannot be installed from the Microsoft Dynamics SL CD(s)?
