- A. Flexible Key
- B. Project
- C. General Ledger Account
- D. Account Category

Answer: D

Question: 3

Which of the following best describe how Project Charge Entry batches post when they are released?

- A. Units and Amounts to Projects.
- B. Debits and Credits to Projects.
- C. Debits and Credits to the General Ledger.
- D. Units and Amounts to Projects and Debits and Credits to the General Ledger.

Answer: A

Question: 4

Which of the following best describes the logic between Budget and EAC?

- A. Budgets are fixed amounts and EAC is an adjustable amount; once Budgets are entered they cannot be changed.
- B. Budget amounts and units are used in the Revenue Recognition process.
- C. EAC amounts and units are revised budget amounts used in the Revenue Recognition process.
- D. EAC amounts are used for project charge entries.

Answer: C

Question: 5

At what level(s) are Project Budgets and EACs created?

- A. By General Ledger account.
- B. At the Project level.
- C. For an Account Category within a Task within a Project.
- D. For a Task only within a Project.

Answer: C

Question: 6

A project is set up in October of 2006, and costs and billings are generated. The Year-End Close process is run in Project Controller for 2006. If the Project Profitability Report is run in January of 2007, the PTD and YTD amounts are equal. What happened?

- A. They did not close Project Controller Module in General Ledger for the Year.
- B. The contract type was defined incorrectly in Project Maintenance. Selecting the correct contract type will change the PTD amounts.
- C. There are no transactions for January 2007. Once transactions are entered, the PTD and YTD balances will be different.
- D. The project is not set up to carry a balance forward at year-end. Check the box in Project Maintenance and re-run Year-End Close.

Answer: D

Question: 7
